

**H&H HEALTHCARE AND
COSMETICS PVT LTD**

Care. Health. Wellness

H&H HEALTHCARE AND COSMETICS PVT. LTD.

- Manufacturing units are located in Indore, Madhya Pradesh - one of India's main centres for manufacturing and supplying food, nutraceutical and health products.
- Our healthcare and nutraceutical portfolio is strategically aligned to deliver a positive impact to our people and society at large.
- We deliver better outcomes for health seekers and patients through our science-based innovative formulations.
- Our mission is to discover new ways to improve wellbeing in people's lives.
- Our leadership team will work through focused research to produce functional foods, health supplements and nutritional ingredients.

Our Focus:

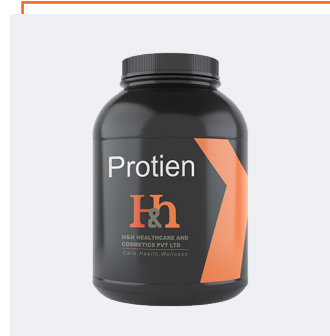

1. To develop unique formulations in Healthcare, Food and Nutraceutical segment.
2. To provide consistent quality, uninterrupted and timely supply at affordable price.
3. Food safety and hygiene to improve public health and consumer welfare in India.
4. To leverage our expertise in food safety for new scientific research partnerships in the country.
5. To generate employment in the sector.

OUR RESEARCH APPROCH AND KNOWLEDGE LIBRARY

We will be coming up with new product lines in Food, Nutraceutical, Protein based proprietary foods, Shakes, Bars, Herbal / Ayurvedic research and development center and a vast knowledge library at our premises.

This will be world class center with recent and advanced technological supports.

FOOD SAFETY

Food safety and hygiene is critically important for improving public health and consumer welfare. A holistic approach including all stakeholders and covering the entire food chain can help to reduce the food-borne disease burden. Food safety, thus, is a shared responsibility. In India we adopt a holistic and collaborative approach towards ensuring safe food for consumers that will help us to meet globally growing demand for healthy and safe food. It is H&H food safety program for new product innovation that will help us to improve the quality of scientific research partnership in the world.

OUR CAPABILITY

Our world Class plant is designed as per current CGMP practices following - WHO GMP / FSSAI / NSF / HACCP norms.

WE HAVE FOLLOWING CAPABILITIES

1. Third Party - Contract manufacturing for multinational and Indian companies at our premises.
2. B2B – Business to Business (P2P) product manufacturing and sales.
3. LL – Loan License – Business to Business product processing conversions.
4. New product research & development to associated businesses in India and abroad for enhancing their product portfolios and formulations.

HOLISTIC APPROACH

OUR COMPANY'S APPROACH IS INSPIRED BY THREE PRINCIPLES:

NATURE – HEALTH – SCIENCE.

1. State of the art manufacturing plant.
2. Quality products derived from natural ingredients.
3. Lean process with ultra modern machines analytical equipments and process utilities.
4. Innovative products at affordable cost.
